## A Brief on the Organization

Janhit Vikas Samiti (JVS), Nawada was established in 1985 on 11th October on the birth day of Lok Nayak Jai Prakash Narayan by a group of persons having keen interest in the socio-economic transformation of the state. It was registered under Indian Society of Registration Act, 1860 on 30th January, 1989. Since its inception, JVS has taken up the issues of social and economic development especially of the poor rural people through natural resources management along with many socio-economic development programmes in the rural areas at the grass root level.

JVS has thus been playing a catalytic role in promotion of land and water resources for reversing the trend of degradation of these natural resources along with keeping special focus and revival of traditional water resources such as ahar-pyne. Since last two decades JVS has made a strong advocacy with a network of NGOs/CBOs for the causes of water and development commensurate with sanitation and hygiene

- To carry out social research and development studies on various aspects of Socio economic and environmental realities Such as rain water harvesting structure Like

Ponds, Canals or traditional water harvesting structure of Bihar, Rajasthan, Madhya Pradesh (Bundelkhand) Uttar Pradesh and Jharkhand.

## Guiding Principles

- ❖ Greater involvement of local community in the operational areas
- ❖ Participatory learning and action in high need and low performance areas
- ❖ Building on existing strengths for better quality of life
- ❖ Multi-sectoral approaches and inter-institutional co-operation
- ❖ Innovative strategies for partnership and collaboration with Govt., NGO and Corporate
- ❖ Behavioral, institutional, financial and policy sustainability
- ❖ Advocacy for changing the “what is” into a “what should be”
- ❖ Cost effective interventions
- ❖ Community participation suggests a sharing of power and responsibility

## Focus On

- Constructive feedback from the operational areas
- Minimum divergence but maximum flexibility
- People-centred development
- Local responsiveness in a problem solving mode
- Consultancy support for pro-poor planning and their effective implementation
- Performance audit for transparency in implementation.

## Monitoring and Evaluation

A continuous / periodic follow up of the results of the projects in relation to the inputs, activities and objectives at different levels. We follow decentralized systems, continuous monitoring and follow-up recording programme activities, missing links- if any, evaluation outcomes and well-being of the targeted beneficiaries.

We assess strengths and weaknesses of the programmes, policies, human resources of the organization to improve effectiveness of the development and welfare initiatives. It is rating activities as well as appraisal or interpretation of data and outcomes.

## JVS in Action

- Led people's campaign for rehabilitation of ahars-pynes in the name of 'Ahar Pyne Bachao Abhiyan' since 1996.
- Led Bhoo Adhikar Abhiyan
- Mobilized communities of Nawada and Nalanda in area against open defecation practices & Use of contaminated water
- Run education centre for child labor, Dalit women and Slum children.
- Co-organizer of a network of Civil Society Organization named Jal Ajeevika Manch
- Skill training to Dalit women and artisans

### **Water is our prime concern: JVS is committed to act upon:**

- Traditional methods of water conservation and management practices in Bihar
- Threats to the water resource due to globalization
- Pollution of water sources from industrialization and urbanization
- Water harvesting measures and its status
- Death of aquifers and its overexploitation
- Reduction of forest area vis-à-vis impact on water recharge
- Drinking water and its quality issues
- Sanitation and its non-linkage with water

### **We undertake advocacy on water through Jal Ajevika Manch (JAM):**

- A platform to discuss and share the issue of livelihood with focus on water
- Formation of a group of people who are serious for the water as a subject
- To see that the people benefit and take it to the state and other forums which can play role in conservation of water resources of the state
- Frame / Reframe the water related policies of the state in favor of resource conservation and people's concern
- To take up studies which may guide others ( like state, civil society organizations etc)

### **We act at the grassroots through Ahar Pyne Bachao Abhiyan (APBA) doing:**

- Renovation of traditional water bodies and water related structures like Ahar, Pyne and Pokhars
- Promotion of water harvesting and water conservation practices
- Awareness generation and mobilization
- Watershed projects
- Promoting effective use of natural resources like land and water for livelihood and economic development
- Contributing to increasing the irrigation potential of the region

**Our strength is our:**

**Dedication,  
Partnerships,  
and above all  
Your Guidance and Support**

**Thank you.....**
